

BTU x \$ = SAVINGS

Earn substantial savings, both now and in the future!

The New Jersey SmartStart Building Program offers many incentives for purchasing qualifying energy-efficient equipment, including Hatco Gas-Fired

Booster Water Heaters. Financially, the immediate savings are obvious in the formulas below. They were developed to help offset some – if not all – of the added cost of purchasing energy efficient equipment. The long-term savings from operating an energy-efficient gas booster heater will be even more significant.

PMG-100

105 MBH x \$17 = \$1785 REBATE

PMGH-60 & PMG-60

58 MBH x \$35 = \$2030 REBATE

PMGH-200

195 MBH x \$17 = \$3315 REBATE
