## ENHANCED CONSERVATION

Fisher Sensor-driven Navigator™ faucets can conserve nearly a gallon of water for every effective hand wash. Add lower water heating costs and you'll save money plus, help the environment.

## BETTER HYGIENE

Faucet handles are a primary means for spreading disease. A smart, hands-free alternative, Fisher Navigator™ fixtures cut contamination risk and can help reduce employee absenteeism, too.

## LEGENDARY FISHER RELIABILITY

Navigator™ faucets are engineered and built like all the products Fisher has offered over the past 80 years — with unrivaled quality. They'll deliver years of trouble-free service.

- 1 **Wall- and deck-mount models** – to fit any operational need
- 2 **Compact controls** – conveniently mount under sink
- 3 **Mechanical mixing valve** – helps prevent scalding
- 4 **Adjustable shut-off delay reduces water waste**
- 5 **Variable sensor range for different sink sizes or personal preferences**
- 6 **Built-in filter** – ensures particle-free water
- 7 **Standard AA backup batteries** – with low battery indicator
- 8 **Complete kit** – includes faucet, control unit, supply lines, AC adapter and mixing valve
- 9 **AC/DC power** – provides continuous operation regardless of power supply
